

**WE LISTEN. WE OBSERVE. WE OPTIMIZE.**

# DYNABRADE ABRASIVE FLAP DISCS

## DYNAFIRE™ CERAMIC

The PREFERRED choice for mild and carbon steel, stainless steel, cobalt chrome, Inconel and Titanium.

### FEATURES

- |          |  |   |  |
|----------|--|---|--|
| <b>1</b> | <b>Features high performance Ceramic Alumina grain with a special grinding aid</b> | → | <b>BENEFITS</b><br><i>Cuts cooler, 20% faster and lasts up to 2X longer than aluminum oxide abrasives.</i> |
| <b>2</b> | <b>Heavy-duty polyester cloth flaps</b>  | → | <i>Provides excellent fray resistance.</i>   |
| <b>3</b> | <b>Fiberglass backing on T27 and T29</b>   | → | <i>High-strength, lightweight and absorbs vibration.</i>   |

## DYNACUT™ Z/A ZIRCONIA

The BETTER choice when grinding and finishing a wide variety of materials like mild carbon steel and stainless steel, aluminum, fiberglass and plastics.

### FEATURES

- |          |   |   |   |
|----------|---|---|---|
| <b>1</b> | <b>Premium, self-sharpening zirconia alumina abrasive</b> | → | <b>BENEFITS</b><br><i>Generates an aggressive and rapid cut rate and up to 30% longer life than competitive flap discs.</i> |
| <b>2</b> | <b>High strength backing provides</b>                     | → | <i>Excellent grain adhesion, edge fray resistance and absorbs vibration.</i>  |

## SHAPES

**Flat Backing Plate & Coated Flaps - The BEST shape for finishing**

**TYPE 27**

- Grind at a 10-15° angle.
- Narrow point of contact.
- Best used for blending and finishing.

**Conical Reverse Curved Backing plate & Coated Flaps - The BEST shape for aggressive stock removal**

**TYPE 29**

- Angled flaps grind at a 15-25° angle without excessive operator manipulation.
- Good for both flat and contoured surfaces.
- Angled abrasive flaps allow for larger surface area contact for high-stock removal on flat surfaces.
- Excellent choice when high speed stock removal is the primary consideration.

# SOLD IN 10 PACKS ONLY
